

CM900 Ntc

Compressors and fans manager

The EWCM 900(/S) is a series of controllers designed specifically for the control of a machine room in a refrigeration system. The EWCM 900(/S) provides control management of the compressors (single units, multi-stage systems or compressors of different capacity), and of the condenser fans.

Technical Data

Container	plastic ABS
Dimensions	72x144 mm, depth 120 mm
Mouting	cut out 67x137 mm
Serial	RS485
Display	Double display 3 digits 1/2
Consumption	6 VA
Power supply	230V (on ask 24V)
Connections	screw terminals for <2.5mm ²
Refrigerants	22, R134A, 502, 404 A, 407, 507
