

CM4150

Compresseur rack regulation, in panel monting 32*74mm

Simple to use and install (mounted on 32x74 board) for control Full of small plants frigorifi cal . All inputs and outputs are independent and confi gurable , which guarantees the reliability of most applications with stepped or modulating control of compressors and fans. It is possible to increase the I / O by connecting an external relay to the low voltage digital output or expansion modules fan control with PWM and analog outputs on.

Technical Data

Frontal protection	IP 65
Container	plastic resin PC+ABS UL94V-0, polycarbonate glass, thermoplastic resin keys
Dimensions	32x74 mm, depth 67 mm
Mouting	panel mounting, cut out 29x71 mm (+0.2/-0.1mm)
Usage temperature	-5...60°C
Storage temperature	-20...85°C
Usage environment humidity	10...90% RH
Storage environment humidity	10...90% RH
Serial	TTL port for Copy Card and Televis system
Display	4 digits
Consumption	5 VA max
Power supply	12Vac ±10%, 50/60Hz
Connections	1 connector for inputs (Cable BV) and second for outputs (Cable HV)
