

CM9900EO

Compressor rack controller

Controllers EWCM8000 / 9000EO were designed for the most complex and the most advanced facilities afin to offer solutions to central direct expansion BT and TN and central unified ed dual temperature with single condensation. They also allow you to manage and direct expansion systems with secondary fluids.

Wide range of refrigerants :

R22 / R717 (NH3) / R134A / R410A / R502 / R417A / R404A / R744 (CO₂) / R407C / R402A / R507 / R402B / R290 / R427 / R600a

Applications

Commercial Refrigeration :

- Trade Retail (Hypermarkets , Supermarkets , Convenience Stores)
- Restoration (Hotels , Restaurants)

Industrial refrigeration :

- processes food
- Distribution
- Other Industrial applications (chemical, pharmaceutical , skating rinks)
