

SMD5500C

PLC - FREE WAY range

With its experience , Eliwell has expanded its fields of application thanks to the range of PLCs FREE WAY

Free Studio, the development environment for product programming, compliant with IEC 61131-3 industrial standard, is structured on different levels of use and lets the designer easily and intuitively manage every stage of the software application: design, testing, debugging, mass production and service in the field. Quick and easy programming Integrated software suite Complete and effective online Help Advanced debugging and simulation options Application protection Different levels of access Application revision log Personalizable user interface

Microprocessor

UC	14,7 MHz
Memory for application	190 Ko
RAM memory automatic router	2300 Bytes
RAM memory Modbus router	1024 Bytes
EEPROM	1024 Bytes

Use condition

Operating temperature	-20...55°C
Storage temperature	-40...85°C
Humidity of Use	10...90%RH
Storage humidity	10...90%RH

Caractéristiques

Power supply	12-24 Vac /24 Vdc
Dimensions	4 Omega Din
Network	TTL/LAN
Connection	Molex connector and removable screw
Boîtier	PC+ABS UL94 V-0 resin plastic casing, polycarbonate glass
Display	4 digits + 18 icones
Mounting	Din rail
Accuracy	Programmable
