D16T15AFC2S200

0

The D16T are pressure switches designed for temperature. They are equipped with an SPDT switch that opens and closes when the temperature rises or falls.

Technical Data

Usage temperature	-40....55 °C
Storage temperature	-40....70 °C
Temperature range	-20...+15°C
Contact type	SPDT
Reset	Automatic
Differential (BAR)	adjustable
Sensing element	straight capillary
Overall length	2mt
