

D17P30MM1MS2 00

D17P30MM1MS200

The D17P are electromechanical pressure switches for high and low pressure. They are equipped with 2 SPDT switchs that opens and closes when the pressure increases or decreases.

Technical Data

Usage temperature	-40....55 °C
Storage temperature	-40....70 °C
Contact type	2xSPDT
Application	High and low pressure
Reset	Manual\Manual
Mechanical fitting	Male 7/16-20UNF
Pressure range (BAR)	-0.3...7; 7...31 (-0.4...100; 100...450)
Differential (BAR)	LP fixed 0.6 (9); HP fixed >= 3.0 (45)
