

EW-SENSE-GATE

EW SENSE GATE

The **EWSense Temp** wireless temperature sensor and **EWSense Gate** access points are the compact solution in the Eliwell environment suitable for reading temperatures in the heating industry. refrigeration and air conditioning. The **EWSense Gate** & Temp range includes: • **EWSense Gate** Access Points • **EWSense Temp** Wireless Temperature Sensors

1- The **EWSense Gate** access point offers the possibility downloading data relating to **EWSense Temp** and changing parameters via SD card and 1 RS-485. In conjunction with the hardware, it is possible to download Device Manager software, which allows users to modify hardware configuration as needed.

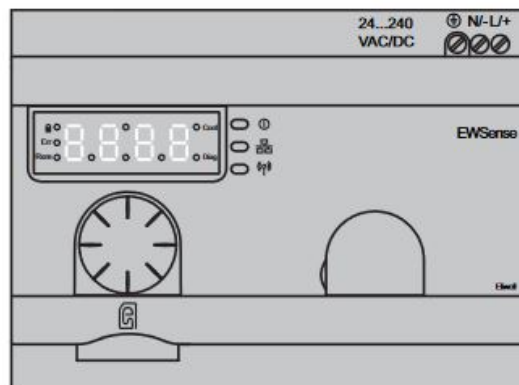

2- The **EWSense Temp** sensors read the temperature of the environment in which they are installed and transmit them to the **EWSense Gate** access point.

EW SENSE GATE

Supply	230 V
Protection	IP20
Measurement Range	-40.....70°C
